The next generation of Keeley Compression is finally here. The all new Keeley Compressor Mini is designed to make the magic of compression simple and easy to use. Featuring an automatic Manhattan-style compression that articulates a transparent blend of your dynamic guitar signal, the Keeley Mini is now the best compressor for small guitar effect pedal boards. The Keeley Compressor Mini retains all of the subtlety and dynamics in your playing while making it easier to play. In any style of playing, in any environment, live or at the recording desk, the new Mini compressor is your secret weapon for huge tone. An all new transient release time is set to make both single coils or humbuckers sound lively and expressive. The new automatic tone recovery circuit ensures you have crystal clear highs, even with high compression settings. We've done the math for you, this is the new calculus for great tone.

Sustain and Transparency - 20 Years Worth.
