

# U2 GUITAR WIRELESS TRANSMITTER HOLDER

## FUNCTION:

- U2 Transmitter Holder is high quality case for wireless transmitter.
- In transmitter holder of small size that matches the size of the U2 guitar wireless transmitter , use attached to a guitar strap.
- Elastic band is fixed with hook-and-loop fastener tape, and firmly hold the transmitter.
- HOLDER ONLY. NOT INCLUDE guitar straps, wireless transmitter.

## SOLVE THE PROBLEM

1. The launcher is fixed on the guitar strap to prevent the launcher from turning or falling.
- 2 Avoid some special guitar interfaces, resulting in U2 can not be inserted directly
3. Avoid electric guitars with preamp circuit or acoustic guitars with microphone pickup, which are disturbed by transmitters and produce high-frequency noise.

## HOW TO USE
